Re: Second NATO Advanced Study Institute of Angiogenesis
Rhodes, Greece, June 16-27, 1993

Dear Mr. Hashim:

We were pleased to receive the \$1,000 (Check 35097) from the Council for Tobacco Research-U.S.A., Inc. for support of the Angiogenesis Conference. Your gesture was generous and will be used to help defray some expenses incurred by the conference. Most assuredly, it will not be used to reimburse expenses for any industrial sector participants. Quite honestly we're trying to help the scientists who are presenting papers and young scientists in this field. These are dedicated people who are working in labs all over the world. Everyone attending is digging deeply into their own pockets for this conference.

The Council for Tobacco Research-U.S.A., Inc. will be given recognition both at the conference and in the book published by Plenum Press giving the results of the conference. Thank you very much.

Sincerely yours,

Peter I. Lelkes, Ph.D.
Associate Professor
